AMENDMENT

Assistant Commissioner of  
Patents & Trademarks  
Washington, D.C. 20231

Sir:

In response to the Office Action dated August 5, 1997, please amend the subject application as follows:

IN THE CLAIMS:

Amend claim 1 as follows:

- E/
1. (Four times amended) An instrument for forming a centered bore in a femur in preparation for implantation of a femoral prosthesis, wherein the femur includes an intramedullary canal defined by an interior wall of cortical bone, the instrument comprising:  
a handle joined to a proximal end of an elongated rod sized to be received within said canal; and  
fins non-displaceably fixed at a distal end of the rod, and projecting outwardly in opposing directions from the rod in a single planar relationship, for engaging the interior wall of the cortical bone when said rod is inserted within the canal so as to center the rod relative to the wall.
